EXAMPLE

Constant width bold

EXAMPLE

Constant width italic

EXAMPLE

TIP This element signifies a tip or suggestion.

NOTE This element signifies a general note.

WARNING This element indicates a warning or caution.

==TITLE

[illegible]

EXAMPLE: Around January 2003, some core developers from the OpenZaurus Project started to extend the range of devices supported by the build system, adding support for different devices. This new build system was eventually renamed as *OpenEmbedded build system*. The OpenEmbedded build system was composed by a task scheduler, called BitBake, and a set of metadata, including a huge software collection and BSP packages.
